There are no downsides to having excellent communication. There are, however, clear disadvantages and loss of opportunity in regards to bad communication. Having established that, what can you do about it?

You can find many general tools that work on improving communication. They offer some solutions that can be effective for some people but not everyone. They do not especially help resolve conflicts between contrasting communication styles. These tools fall short when they simply prescribe what is happening and then they offer a blanket solution, like using a general script to communicate to introverted or extraverted people on a team. Why is this less effective? Everybody is different. What works for one individual may not work for another team member. Forcing everybody to adopt a specific communication approach can backfire and make some communication issues worse or create resentment among those team members who don’t feel that their communication style is being respected. Other tools focus only on identifying different personalities but do not provide enough practical tools and they are not sufficiently applicable.

- **Time Loss** - Communication breakdowns lead to significant time losses and this can result in customers leaving. Time loss is frustrating and tangibly costs organisations. Time losses are often a consequence of miscommunication.
- **Disputes and conflicts** - Workplace conflicts can result in absenteeism and people leaving their job. In fact, according to research, up to 50% of the reasons people leave their job is due to disputes and conflict.
- **Low employee engagement and productivity** - Communication breakdowns force people to give their time and attention to fixing the errors that should never have happened in the first place. Poor communication often leads to presenteeism where employees are at work but they are not fully present, engaged and unified as a team. Poor communication causes frustration and stress.
- **Project failure** - Poor communication, if it is not detected on time, can lead to project failure. When a mistake is made early in the process and never caught, and thus the project continues on a faulty base.
- **Decreased revenue** – According to The Holmes Report – corporations with leaders identified as highly effective communicators had up to 47% more returns to shareholders within a five-year time span when compared to the corporations with the least effective communicators at the helm. Simply put – good communication pays.
- **Unsafe and unhealthy work environments** – Poor communication contributes to issues with occupational health and safety, lack of trust, low ‘company buy-in’, and more. Employees want to be on a healthy, cohesive team that is working together.

The Holmes Report: total estimated cost of employee misunderstanding (including actions or errors of omission by employees who have misunderstood or were misinformed about company policies, business processes, job function or a combination of the three) in 100,000-employee companies, among 400 surveyed corporations in the U.S. and U.K. (average cost per company is $62.4 million per year) 2. $26,041: cumulative cost per worker per year due to productivity losses resulting from communications barriers 3. Companies that have leaders who are highly effective communicators had 47% higher total returns to shareholders over the last five years compared with firms that have leaders who are the least effective communicators’ – The Holmes Report - https://www.holmesreport.com/latest/article/the-cost-of-poor-communications

Option 1: Life Languages™ Communication Breakthrough Course© - Featured Course

Poor communication costs businesses millions of dollars due to low productivity, conflict, and staff turnover. To be able to do any work together, we need to communicate. We need to learn the skills to be understood and to understand what is being said to us. Any breakdown in communication can have significant costs to your business. The wrong product shipped to the client, a fight between two team members due to a misunderstanding, colleagues who don’t trust each other, feelings that are hurt, a customer being told the wrong thing... All these can occur as a result of a problem in communication and damage the reputation of your brand. The costs are quantifiable, too. The Holmes Report reviewed 400 corporations and found that in the largest corporations in the U.S. and the U.K., the price for communication barriers were around $62 million in productivity in each corporation. If your business involves more than one person, in any capacity, whether as an employee or a client, you need to be able to communicate effectively. Ineffective communication costs:
Fred and Anna Kendall developed The Kendall Life Languages Profile™ over 30 years ago. It has a 98% statistical accuracy and it has been taken over 225,000 times with people in over 100 countries around the world since 1985. It is accurate and effective regardless of age, race, nationality, ethnicity or gender. It is a communication analysis tool that teaches you to be self-aware, internalise the information about the seven communication styles, and reach others by speaking their language. Life Languages™ is based on the principle of character-centered-communication which aims to empower you and your team to communicate more efficiently and productively. Through this course we will help the participants identify their communication challenges. Participants will receive tools to become effective with their relationships and interactions. You will be amazed at how you and your team activate the learning as you reach others by speaking in their communication styles. This fun and interactive course is aimed at improving workplace communication and character.

You may have heard of profiles or assessments which tell you about your personality. Life Languages™ is a unique and different profile that gives you a comprehensive picture of who you are and how you communicate, act, and behave. This profile does not single you out into one of 4 quadrants or one of 16 styles but rather expresses how we are all wired with 7 Life Languages™ at varying levels. Each of these 7 Life Languages™ highlights positive communication skills as well as areas for personal growth. The Kendall Life Languages™ Profile is both diagnostic and prescriptive. It diagnoses your passions, strengths, fluencies and possible weaknesses. You and your participants will gain an almost immediate self-awareness and others-awareness. Now let’s take a quick look at the 7 Life Languages™.

Transform your Team Communication, Character and Culture

Team health is crucial for any business seeking growth. Patrick Lencioni, a world-renowned expert on teams, argues that team health is the single most significant advantage for any company. Although team members are technologically interconnected, there are often silos within teams and departments. Lack of collaboration or poor communication leads to team problems and failures. Teams usually succeed or fail based on communication and trust levels.

Many leaders ignore team health for a variety of reasons; some of the reasons are listed below:

- Leaders have never been trained.
- Leaders are consumed with immediate outcomes.
- Leaders are too busy.
- Leaders may have tried taking their teams on activities with little results.

Building and leading a healthy and cohesive team is vital to reinforce the values and vision of your business/organisation. A thriving team has a pulse on the importance of culture, trust, healthy conflict, accountability, commitment, accountability and results. Now let's take your team(s) to new heights!

Often, our clients want a more structured training that focuses on team cohesion and effectiveness. We have built this training over the past 10 years and have led it in part and in full with teams around the world. We credit Patrick Lencioni and the Table Group and their '5 Dysfunctions of a Team' and 'Advantage' books/tools for some aspects of this course. This interactive course gives your team the skills and resources that are essential for them to become a healthy and cohesive team. This course is a mix of learning, coaching and small group activities. We will empower your leaders and teams to breakthrough and achieve their potential!

This Breakthrough Corporate Training proprietary course will include the following outcomes for your team:

- Understand the dynamics and importance of teamwork and what is needed to lift the effectiveness of your team.
- Learn how to work together effectively, appreciating each other's strengths, values, and weaknesses.
- Develop a vision that is “owned” by everyone on the team.
- Create the needed action steps that will see the team and organisation get their desired results.
- Communicate the vision in such a way that it is accomplished.

39% of surveyed employees believe that people in their own organization don't collaborate enough. So the drive is there, there is no mistaking that your workforce wants more collaboration, and sees a need for it. What they require now is the leadership to direct this change. Silos don't come down on their own; a shift toward a more collaborative culture needs to come from the top, down... About 75% of employers rate team work and collaboration as “very important”, yet only 18% of employees get communication evaluations at their performance reviews... 86% of employees and executives cite lack of collaboration or ineffective communication for workplace failures...

Rapport can be the deciding factor between success and failure in your relationships. So, what is rapport? Rapport is the process of establishing and maintaining a relationship of mutual trust and understanding between two or more people.

Rapport is entering someone else’s world so they feel you understand their perspective and needs. We can also say rapport occurs when people communicate in such a way that they have mirrored their bodies and words.

If someone is hesitant, closed, uncooperative, and reluctant to communicate with you, it is likely that you have not yet built rapport. Developing a strong sense of rapport with clients or team members ensures you have a high level of trust, confidence and participation.

Taking the time to build rapport with customers and potential customers can contribute to sales and business growth. In fact, we can have an amazing product or service but without rapport we will struggle to connect with people and make sales. Rapport is crucial to the success of any business and while essential for sales, rapport is also vital for in-house employee relationships.

This course helps you and your team move from superficial to real connections with people. Body language and first impressions are vital keys to becoming a highly engaged individual and for building a highly engaging culture. The precious first moments when your team members interact with clients can make or break the possibility of a sale occurring. The residual effects of employees who do not authentically build rapport will result in diminished sales, lower customer service, loss of business, and lower staff morale.

This Breakthrough Corporate Training proprietary course will include the following outcomes for your team:

- Understand authenticity, trust, and establishing a road map for strengthening these qualities.
- Know how to prepare for a stakeholder conversation that will result in rapport being established.
- Know how to make a positive first impression.

Option 7: Breakthrough Assertiveness and Confidence Course©

Most people would like to be more confident, but confidence, while highly desired, is often elusive. A survey of British Managers conducted by the Institute of Leadership and Management in the UK revealed that 50% of female respondents and 31% of male respondents don’t feel confident about their job performance and careers.

Have you ever met someone in business who amazed you with the amount of confidence they exuded? Have you also wondered, “Is it possible to train myself or my team to be more confident so that we can draw on that confidence when we really need it?”

Neuroscience has shown us keys to unlock our confidence. As the author of ‘Awaken the Wild Lion Within’ Scott Epp has developed a coaching methodology to help people break free from their cage and have total confidence. Participants will become more self-assured and confident as they awaken the wild lion / wild lioness within and and activate confidence strategies in their personal and professional lives.

It has been discovered that confident people share many of the same traits, even across cultures and industries. Cultivating the traits you already have and developing those that you do not yet have will build your overall self-confidence. Remember, self-confidence is about building yourself up, not tearing others down. When you are confident, you make others around you feel confident too. Research has consistently demonstrated that when clear goals are associated with learning, it occurs more easily and rapidly. Your courageous confidence and self-worth will translate into more success in sales, service, leadership, and all aspects of being a fulfilled and effective team member.

This Breakthrough Corporate Training proprietary course will include the following outcomes for your team:

There is a 1.9 times increased likelihood of having above-median financial performance when the top team is working together toward a common vision.” - Scott Keller and Mary Meaney, Leading Organization: Ten Timeless Truths, New York, NY: Bloomsbury, 2017.

In today’s interdependent, matrix, and dynamic workspaces, the need for teams to work smoothly is critical. However, the realities of competition, ego, personal agendas and fast changing teams makes for some interesting challenges that teams and leaders face today in getting everyone to rally around a common goal. Significant barriers to team growth can be people’s resistance and fear. When it comes to organisational culture, it is essential that teams are synergised together, especially in times of significant change. This course/intervention has a proven track record of getting transformed results with leaders and teams in dozens of multi-national organisations.

The leadership team of a French energy company was not aligned for a critical expansion so each department was taking counterproductive and contradictory actions. At the end of the course they shared this success story:

“The session unfolded very powerfully in breaking barriers, encouraging empathy-based conversations and forging a way ahead for building deeper, stronger relationships. We are going back as a more understood, empathetic team with the potential to sustain our levels of trust and collaboration.”

This course has a proven process and methodology that gets teams to connect, converge, and conquer,

The process acts as a catalyst to team synergy, creating a safe space for people to connect on a deep level. From their authentic dialogues and facilitated experiments, they can build trust, understanding, and positive intent. The team successfully sets norms and holds each other accountable to higher standards. The Synergizing Strengths intervention follows a 4-step approach to enable teams to Catalyse, Converge, and Conquer. Breakthrough Corporate Training has strategically partnered with TransforMe to offer The Synergizing Strengths Course©.

Step 3 – The Synergizing Strengths Lab – This is a 1–2-day classroom lab-based session led by industry leading and award winning methodologies that TransforMe facilitators have mastery over. At the end of the workshop, the group walks away with a clear and implementable plan to truly synergize their strengths!

Wellness is a broad term, but it is the secret to a happier life. Wellness is your ability to feel emotionally, physically, and mentally content – it is your ability to not only be physically healthier but also to feel as though life is going your way, without allowing setbacks and other issues to prevent you from experiencing fulfilment. Employee wellness is one of the keys to employee retention and performance. People that commit themselves to wellness are healthier, more satisfied, and more energised. Wellness should be a priority for any working professional and their leaders. It is an essential investment for anyone who wants to get the most out of life. Luke Ashcroft will teach you and your staff how to move, eat, and think for improved wellness.

Our Breakthrough Corporate Wellness Course© has the potential to reduce your employee sick days, improve performance, create better employee loyalty and satisfaction. This ultimately helps improve employee performance through improved physical and mental health.

This Breakthrough Corporate Training proprietary course will include the following outcomes for your team:

- **Improved Physical Health:** Failing to take care of one's health can have personal and professional consequences. Companies lose money each year as a result of illness, and many illnesses are preventable with better self-care. Those that engage in wellness programs become more energetic, sharp, and productive, because their body is healthier as a result of better eating habits, fewer destructive habits, and regular, consistent exercise.

- **More Abundant Mindset:** Wellness is also about contentment. On a basic level, happy employees that feel fulfilled are going to be more engaged and more loyal to your company. The abundance mindset teaches each individual how to live according to their values, replace scarcity thinking with abundance, and teach appreciation and resilience through challenges.

- **Better Holistic Wellbeing:** When the mind, body, and soul are all experiencing greater “health” and fulfillment, we are “improved” as a person and as an employee – one that works harder, collaborates more energetically, and can improve their productivity. According to recent reports, 40% of Aussies have a “poor work/life balance”. With our holistic wellness trainings, employees receive clarity about where they are, who they are, and how they can get to where they need to be. Our goal through this course / workshop is to help employees achieve holistic wellbeing and balance.

- **Discovering Your Wellness Path:** An essential aspect of wellness is helping people discover their wellness goals and their own path. Setting a wellness goal starts people on a journey, and through the breakthrough process they will learn to make life more epic.

Help your leaders and teams to breakthrough with their wellness so that they can achieve their personal and professional potential.

Option 14: Navigating Transitions and Change in the Workplace Course©

The world continues to change rapidly, and businesses and organisations need to make well thought out transitions if they are to flourish and stay relevant.

“Every exit is an entry somewhere else.” - Tom Stoppard.

Change has to do with the basic decisions we make, decisions such as moving to a different site, changing the CEO, or changing the direction of the business. Change is always occurring. However, like someone rightly said, ‘It isn’t the changes that do you in, it is the transitions.’

Transitions involve significant shifts, and unless we understand these shifts, it is difficult for us to make effective transitions and see the changes we want to become a reality. Transitions are often poorly managed, and the changes hoped for fail.

This Breakthrough Corporate Training proprietary course will include the following outcomes for your team:

- How to prepare for transitions – the letting go process.
- Learn how Life Languages™ and the communication styles and distress flares of others affect the change process – and what to do about it.
- Having an abundance mindset and changing your thinking.
- Learn the components to develop a change management and communication plan and learn to list implementation strategies.
- Learn and implement the 7 Cs to Navigate Transitions and Change in the Workplace© - Communication, Commitment, Contribution, Cooperation, Confidence, Conflict resolution, and Connection.
- Understanding the different individual motivators for change.
- Understanding and processing the losses in a transition, and the grief process.
- Having an Abundance Mindset.
- Communication in transitions.
- Celebrating endings and honouring the past.
- Leading people through the reforming zone.
- Building a transition feedback loop.
- Ensure the transition is effective and the changes being sought are achieved.

In this course, we will employ strategies for gathering data and address your specific concerns and issues. We will lead you to evaluate options and solutions to adopt a change direction. We will lead your team through practical strategies that will help them advance to new levels with their change process. This course will give any Leader or team member the tools needed to implement changes more smoothly and to have those changes better

1 Day: The complete Navigating Transitions and Change in the Workplace Course©.
Option 15: Developing Empathy as a Strength Course©

The Oxford Dictionary defines empathy as ‘the ability to understand and share the feelings of another.’

When we empathize, we show a connection with how the other person is feeling. This helps the other person feel understood. The focus is on understanding the other person’s feelings from their point of view by standing in their shoes. Empathy is often confused with sympathy, a feeling of pity or compassion for someone. Empathic communication, as Steven Covey argues, is central to improving our relationships. The good news is that we can become more empathic. Our brains are surprisingly malleable or ‘plastic’, enabling us to revive our neural circuitry. Both cognitive and affective empathy are important in customer service and all relationship transactions. Empathy is caught more than it is taught. We will demonstrate empathy in various situations and all participants will be activated so that more is caught.

This Breakthrough Corporate Training proprietary course will include the following outcomes for your team:

- Understanding the foundations of empathy.
- Learning the different types of empathy.
- The science of empathy.
- Stepping in other people’s shoes (and role-playing as them).
- Practicing curiosity, active listening, and advanced communication skills.
- Learning about the importance of emotional intelligence and social intelligence and putting it into practice.
- Gaining a deeper understanding of communication, including words, voice, and body language.
- Moving from rapport building to influencing stakeholders and/or closing the sale.

It takes effort and hard work. In this course, each participant will pay more attention to the social world around them. Each participant will develop communication skills as they develop empathy as a strength. Each participant will become a more effective listener, through the development of “active listening” skills, in which you reflect back what you believe the speaker said in order to ensure clear understanding. As your Trainers and Coaches we will study the behaviours and social situations within your group and everyone will grow by practising their empathy skills.

Training Options

This course may include actual role-plays or live activations and consulting with customer service, sales teams, etc.

90 Min - 1/2 Day: Selected sessions on developing empathy as a strength in the workplace can be led in 90 minutes – 1/2 day. The abridged Developing Empathy as a Strength Course© can be led in half a day.

1 Day: The complete Developing Empathy as a Strength Course©.

Option 17: The Epic Life Values Course©

This is an Epic course for personal and professional development. This course can be Epic for organisations that need to clarify their values/vision/mission/purpose.

We live in a world where it’s easy to lose our path. Society often offers its own roads to happiness. Sailing through life without values is like taking to the ocean without a map, without a compass, and with a broken ship’s wheel. We are left to the mercy of the elements, the waves, the wind, so we will go wherever they take us. We can easily get lost in the vastness of the ocean without something to guide us because we have nothing to help us steer our ship and plot our course. We don’t have a destination, so we just float around. Even if we do have a destination, we can’t reach it – we can’t place it on the map we don’t have, we can’t head the right way without a compass, and we can’t steer the ship closer without a ship’s wheel. In short, going out to sea without a map, compass, or ship’s wheel is an aimless idea.

Going through life without values is not that great either. To get somewhere in life, you need to:

- know what you want and what matters to you.
- know how you can align yourself to your values and be your authentic amazing best.

"Values are ideas or themes in your life that are important enough to you that they affect how you think, how you act, and how you feel. Values are intrinsically entwined to the depth of who you are, making you distinctly unique and special." – Scott Epp

As the creator of the Epic Life Values Discovery© and the author of the upcoming ‘Epic Life Values’ book, Scott has led over 1,000 hours’ one-on-one sessions with core values with his coaching clients.

This Breakthrough Corporate Training proprietary course will include the following outcomes for your team:

- Discovering what every participant’s Epic Life Values© are and creating powerful statements.
- Learning the process of using values to make decisions and live an authentic life.
- Creating a genuine, lasting change that will result in a life that is aligned with the things that are important to you and that will inspire you to be your best possible self.
- Establishing a difference between your organisation’s values and your Epic Life Values and how to bridge the gap between the two.
- Learning how Epic Life Values can help you make better decisions personally and professionally.

Option 18: The Life Plan Intensive Course© or The Business Plan Intensive Course©

This engaging workshop awakens participants from their slumber as they leave their comfort zones, overcome their biggest challenges, face their giants and dragons, find their identity and emerge as the hero on their epic journey.

Everyone can benefit immensely if they develop a life plan, with clear steps toward living out their plan. When your team members gain a deeper understanding of identity, vision, values, strengths, skills, and purpose, and they have an inspiring road map for their future, they will be more effective and productive.

No matter where people are in their life span, they need a life plan. Most people spend lots of time planning weekly activities or vacations, but give little attention to the outcomes they really desire in the major areas of their lives. The Life Plan Intensive is a great professional and personal development training event that can be led in a 1 - 2 Day format at your location or at a Retreat Centre.

Scott Epp and Greg Beech have developed and enhanced this course since 2014 and have led it in multiple venues. This dynamic workshop encompasses a 100-page workbook with amazing graphics and tools that will empower you to become the hero of your epic journey of life. The Life Plan Intensive and Business Plan Intensive formats are both filled with drama, music, activations and deep personal reflection. Participants will enjoy a unique collision of pragmatism, innovation and creativity. The sessions are creative and enchanted as you are led to create an inspiring road map for your future.

This Breakthrough Corporate Training proprietary course will include the following outcomes for your team:

- A life plan will avoid something we call “deadly drift”
- A life plan increases self-awareness.
- A life plan will help clarify the most important values, strengths and priorities in your life.
- A life plan will provide a road map for accomplishing what matters most.
- A life plan will provide filters for saying “no” to the things that are less important and counter-productive.
- A life plan fosters a sense of personal integration and fulfillment that overflows into career development and productivity.
- A life plan will help ensure participants finish life with few or no regrets.

As with all of our trainings, we aim to connect with everyone in the training room. We build our courses to be interactive and engaging with a mix of teaching, coaching, fun, and application.

Team Building Experience Options
Experience Option 1: The Egg Drop Team Building Experience©

One of our favourite team activities is the The Egg Drop Team Building Experience©. Initially, there will be a learning approach where all participants will grow with leadership and project management strategies and communication styles that your leaders outline. We will split the Team up into groups of 3 - 5 and each group will have specific instructions. Then the experience begins!

At this point each group will receive a box of goodies and instructions to build a contraption that protects an egg for a 1 - 3 story drop. A shorter location with a ladder is possible and we would accommodate for the situation to make it fair, fun and competitive. Follow the criteria that we put forward. Each group will have a box of dozens of articles and a timeline to work together and create the ultimate egg saving device. There are also elements of being resourceful as each team has a set amount of ‘Breakthrough Bucks’ that they can spend on additional articles. There will be a group presentation before and after their egg drop. The highlight of the day is watching and laughing together as each group drops its egg from a tall location on-site. The laughs and team’s morale from this team building activity are excellent. At the end each team will get to present its Egg saving contraptions and it will discover which eggs have survived. The Winning team will be revealed based on their teamwork, meeting physical requirements, the egg’s survival after the drop and profit margin. Watch a case study: www.breakthroughcorporatetraining.com.au/teambuilding/egg-drop.

This Team Building experience will include the following outcomes for your team:

- Focusing on the importance of teamwork and what is needed to make a team better.

This Team Building activity is filled with so much laughter and fun. This unique Team Building experience highlights aspects of teamwork, bonding, performance and leadership that your teams need to succeed. It breaks down the silos that may exist within your teams because each team will be a mixture of different departments and the strengths of each member will be highlighted.

Training Options

We will lead this workshop as a solo event. You may also inquire about our dozens of other experiential team-building activities. These team activities can be led in conjunction with one of our other training options.

90 Min - 1/2 Day: It is possible to run this experience in 90 minutes. In 1/2 day we would have time to incorporate other team building, leadership, motivation, communication elements with the experience.

1 Day: The complete Egg Drop Team Building Experience© will last for 1/2 day with one of our other courses taught for the other 1/2 day.
Experience Option 2: Custom Team Retreat

Get ultimate success and breakthrough with your team by taking them away on a corporate team retreat. One of the reasons company leaders scrutinise company retreats is because it takes time away from the office. While this is true, research has found that spending time away in an outside location provides employees with time to step back and re-evaluate their work. They head back to the office with focus, energy, and stamina which results in the whole team being happier and more effective.

We offer corporate retreats on a large variety of topics. Corporate retreats can be led with leadership groups or with an entire team. We could come in to deliver a half-day or full-day training with fun and interactive sessions from any of our courses such as the Life Languages Communication Breakthrough course (See page 7). We have a Life Plan and Business Plan intensive (See page 25) format that is suited for team retreats. We could run sessions on discovering your individual or company values, vision, and purpose. We can facilitate sessions where we develop your strengths with communication, leadership, conflict resolution, rapport building, sales, or more. Our Leadership retreats are exceptional as they provide you a powerful way to become a breakthrough influential leader that is character and heart driven.

Furthermore, our retreats are often led with fun and creative team-building aspects that get your team to really think and work things out. We have team development and team-building activities that we could include in your retreat. Your leaders may have some of the sessions that they want to run internally. This is great as we will work with you to complement our part with you. As you can see there are possibilities for you. If you want to create lasting positive experiences and strengthen employee relationships with your company, then plan a team retreat with us.

Here are a few of the benefits you and your team will experience with a team retreat with sessions/activities from Breakthrough Corporate Training:

- Nurture closeness and bonds among team members
- Set new and common company goals and deeper learning
- Facilitate amazing communication breakthrough with team members
- Build up skills and effectively perform as a team
- Increase team morale and joy
- Express gratitude and appreciation for your team members

Training Options

When we talk to Team Leaders about retreats we find there are a lot of aspects to plan for. We can lead sessions for corporate retreats that companies are already hosting. Some venues that you may want to consider are Glen Worth Valley, Kangaroo Valley, Stanwell Tops, Sydney Northern Beaches, Sydney Maroubra Beach, Blue Mountains, Nowra, Berry, Central Coast, Cairns, Gold Coast, Melbourne, Perth, Adelaide and many other locations. We can explore any possibility for a retreat in Australia, India, Philippines, Singapore, New Zealand, Thailand, Indonesia, Canada, The United States, Europe...

Experience Option 3: Custom Team Building Experience

Are you ready to have some fun as a team? When we design our Team Building Experiences we meet with your leaders and discuss the available options. Sometimes our team building focuses on aspects of building trust, raising morale, and team bonding. We offer a range of activities from painting that unlocks creativity and purpose to Builder Blocks / LEGO activities that are centred around problem solving to vulnerable team trust activities. We could lead The Egg Drop Team Building Experience© (See Pg 27) or we could even lead The Ultimate Vision Board Activity© (See Pg 16). Our team building invokes laughing with each other and team synergy. Here are a few of our Team Building Activities:

Epic Life Values Game© - This game was created by Scott Epp. After an introduction to Values each participant will receive a set of Values cards. Participants' are led through multiple stages. The fun and tension heats up as participants need to discard, trade or sell Values cards that they have to get the cards that they really want.

The Village - This is a great team activity to experiment and discover the value of seeing the bigger picture. This is one of the most popular and high demand team building activity that promotes bonding, collaboration and the need to break silos – with a lot of fun and excitement. The groups come together to become one team – physically and in ideas and execution – to build on a big scale model of the village!

The Ultimate Spaghetti Bridge Challenge© - The Ultimate Spaghetti Bridge Challenge© requires immense creativity, team work, strategy, resourcefulness and engineering to complete. After the initial briefing by the facilitators, the groups will need to complete this task in 3 stages – The Preparation, The Building and The Testing stage. We mix things up with ‘Breakthrough Bucks’ to buy additional materials at the ‘Breakthrough Store.’

Who is the Richest Winner?© - The activity itself is based on the principles of game theory – although none of that is shared with the participants at the start. The activity is played out in groups, with each group needing to achieve a revenue target. The activity intensifies as groups negotiate and trade their with the other groups. What ensues in a great deal of discussions, planning and negotiations – and the only way to win is if everyone wins!

Our Core Values are Engagement, Breakthrough and Passion and we bring these values with us into every team building experience. We can compliment an existing Course / Workshop with a team building activity. Let’s breakthrough and have some fun!

Here are some ways our team building will benefit your team:

- Our Team building events create the environment needed to focus on the importance of teamwork, bonding and synergy.
- Team building also aids in building a high performing team with good communication (both verbal and non-verbal), leadership, bonding, fun, trust, and more. Team members will become more efficient and they will grow in their appreciation for each other’s strengths and values.

Option 2: The 12-Month Breakthrough Influential Leader Programme©

This programme is an extension of our Breakthrough Influential Leader Course®. Your leaders will develop skills in self-awareness, serving, leadership styles, and effective leadership. The focus is not on project management, or financial management, but on people management. Almost everything in business succeeds or fails based on the quality of leadership being shown at every level of an organization. Your leaders will grow in their Breakthrough Influential Leadership skills through our regular coaching and training.

Step 1: Design leadership training content tailored to your specific business needs based on the breakthrough influential leadership technology that we have built. In the design, we will collaborate with you to learn what your leadership needs are. We will assess where there are strengths and where the areas of deficiency are. Every organisation and every team is different, so this step is very specific to you.

Step 2: Introduce and train your leaders on the paths that we have set out in Step 1. We will meet with your leaders and train and coach them. In this step, we may also develop effective tracks for “on the job training” of leaders. In this phase, leaders take the principles and skills given in the training and apply these skills to their various roles. As much as 60% of learning takes place in this phase. This is still inadequate without the third step of The 12-Month Breakthrough Influential Leader Programme®.

Step 3: Work with your leaders in establishing a coaching and mentoring system. As leaders apply the material, it is important that they are mentored and coached so they are developed to their full potential. In this respect, it is true to say that leadership is more caught than taught. We will work with you to set up coaching and mentoring as needed within your team and we will also provide ongoing coaching and mentoring throughout the 12 months. We will meet with your leaders regularly for implementation and coaching sessions. We can meet your leaders on location at their work or through zoom.us video conferencing.

Step 4: The character development and personal growth of a developing Leader are crucial if they are to reach their potential. Leadership training will include personal growth, self-awareness, dealing with a negative or unhealthy behaviour, and the development of ethical leadership practices. We will introduce and train your leaders on universally accepted wisdom principles that will strengthen and deepen your leaders.

This 12-month programme will include the following outcomes:

- Teach your leaders the skills of high performing and influential leaders.
- Train your leaders to become complete as a Leader from the inside out.
- Your leaders will be able to identify their natural leadership and communication styles and will learn how to work with other leaders with different leadership styles in a complementary way.
- Advance with pragmatic competencies such as goal setting, problem solving, conflict skills, delegation, self-care and more.
- Lead with integrity and wisdom principles that will strengthen your courage, influence, and more.

Enquire to find out more about The 12-Month Breakthrough Influential Leader Programme© (This Programme can be delivered in 3 or 6 months as well.) The extent of training and coaching can be customised to your company's needs. Here are some of the paybacks you will experience.

- **Courage** – You will look fear, doubt, and shame in the eye and rise above. You will be able to deal with conflict, confrontation, and criticism better and be a witness to the power of forgiveness and releasing judgments. With a strong stand on morality you will deal with pressure and live with conviction and strength.

- **Leadership** – You will have a better direction for your future and people will look up to you and want to be led by you.
